Travis,
I'll be there. My cell # is in my signature block below. Do I need to bring a PFD or do you have extras?

Jim Anderson
Manager, DEQ Portland Harbor Section

Travis

Thanks - I will meet you there. Looks like Eric is going to be tied up tomorrow and is not planning to join us.

My cell # (b) (6)

Chip

RE: November 11 Harbor

Chip, Eric, Jim and Peter: Let's meet at 1:30pm at Cathedral park. I will drive the boat there, and we can do the tour from that site.

My cell is (b) (6) .

Can you provide me with your cell numbers in case we need them? Also
PLEASE
CONFIRM YOU WILL BE THERE!!

IMPORTANT - YOU WANT TO HAVE RAIN GEAR, A WARM HAT, GLOVES ETC. THE BOAT IS
PRETTY OPEN AND THERE ISN'T LOT OF PROTECTION FROM THE ELEMENTS. THAT
BEING
SAID, WE WON'T BE ZIPPING ALONG VERY FAST.

Thanks,

Travis

Travis Williams

OK - thanks - I'll check with Eric but I think he was planning to go last time we talked.

RE: November 11 Harbor

This is a much smaller boat that we had before. I can take me and three others - which pretty much means you, Peter, and Jim Anderson. I guess one more could work, but I haven't heard back from Eric.

Travis

Hi Travis

Just wondering how much room there is on your boat for Nov 11th and if it would be possible to bring someone else from our office (Kim Johnson, currently working on Columbia River Toxics issues) who's been looking for an opportunity to see the harbor. If space is tight or you prefer to keep the numbers low that's OK, we can get her out another time.

thanks
Chip

November 11 Harbor

Chip, Eric, Judy and Jim:

As I mentioned when we met last week regarding a harbor tour, Peter DeFur can be in town on the 11th, and will be here on the 12th as well. If you all could make a 2 hour trip on the Willamette on the 11th, that would be ideal. I know it is officially a holiday, but from what I understand, you guys are busy all day on the 12th.

Let us know if you can meet on the 11th, and we will plan accordingly. It would be good to get out while Peter is in town.

The Riverkeeper boat should be up and running by then.

Thanks,

Travis,
